Value Education Programme Report: 2025-26

Classes VC and VD

The students of Class VC and VD presented a vibrant and informative Value Education Programme on the theme “Honey Bees – Nature’s Tiny Heroes”. The programme highlighted the importance of teamwork, hard work, and care for the environment through the life and contribution of honey bees.

Highlights of the Programme:

1. Anchoring and Introduction

- The event began with a warm welcome by the anchors, who introduced the theme and set the stage for the learning journey about honey bees.
- Students expressed enthusiasm and actively engaged the audience with interactive questions.

2. Depiction of Bee Colony Life

- Students portrayed the Queen Bee, Worker Bees, and Drone Bees, each explaining their unique roles and responsibilities.
- The colony was compared to a family, teaching values of responsibility, cooperation, and unity.

3. Life Cycle of a Honey Bee

- The complete metamorphosis of bees — from egg, larva, pupa to adult — was beautifully enacted.
- Students demonstrated how every stage contributes to the hive’s survival.

4. Honey-Making Process & Waggle Dance

- The science of honey production was explained in a simple and engaging manner.
- The waggle dance was performed to show how bees communicate the location of nectar, making the act both fun and educational.

5. Quiz Sessions

- Throughout the programme, quiz rounds were conducted to involve the audience.
- The questions tested knowledge about nectar collection, uses of honey, beeswax products, and apiculture.

6. Honey and Its Uses

- Students shared the diverse uses of honey in food, medicine, skincare, and healing, reinforcing its value in daily life.
- An experiment was conducted to demonstrate the difference between pure and fake honey, making the session practical and interactive.

7. Beeswax and Apiculture

- The uses of beeswax in making candles, polish, and lip balm were explained.
- A student enacted the role of a beekeeper, describing apiculture and its importance to both bees and humans.

8. Environmental Message

- The programme concluded with an awareness message about the dangers faced by bees due to habitat loss, pesticides, and climate change.
- Students urged everyone to plant bee-friendly flowers, avoid harmful chemicals, and support local honey.

9. Cultural Additions

- The programme also included a poem recitation and rhythmic performance, adding creativity and artistic flavor.
- A vote of thanks was delivered, and the programme ended with the school anthem.

Learning Outcomes:

- Students gained confidence in public speaking, dramatization, and teamwork.
- The audience learned about the ecological importance of honey bees and ways to protect them.
- The programme successfully connected values of cooperation, responsibility, and environmental care with real-life examples from nature.

Conclusion:

The Value Education Programme of Classes VC and VD was a grand success. Through dramatization, quizzes, experiments, and performances, the students not only showcased their talents but also spread a meaningful message:

“Save the Bees, Save the Planet.”
