NOTICE REGARDING WATER CONSERVATION WEEK (JAL PAKHWADA)

DBSSSN/R/ACAD/V-XII/APRIL/26/17

Date: 28th April 2026

Dear Parents,

As per the guidelines of the Ministry of Education, Government of India, Jal Pakhwada activities have been undertaken for the observance of Earth Day.

These activities have been conducted during the week-long celebration from 21st April to 29th April. In line with this initiative, the school has organized a series of meaningful activities as part of Water Conservation Week to instill awareness and responsibility among students.

We sincerely appreciate your support in encouraging your children to participate enthusiastically and contribute towards spreading awareness about water conservation.

Schedule of Activities Conducted in School

Date	Class	Activity
21st April	Class IX	Debate – Is Water Crisis Man-Made?
22nd April	Class V	Poster Making – Save Water, Save Life
23rd April	Class VI	Poetry Recitation – Every Drop Counts
24th April	Class VII	Slogan Writing – Water Conservation
27th April	Class VIII	Hygiene Demonstration–Safe Drinking Water
28th April	Class IX	Graphic Design – Grey Water Reuse
29th April	Class XI	Reel Making – Issues on Local Water Bodies

Parents are also requested to actively engage in simple water conservation practices at home and within your communities, such as:

1. Conducting a water audit to identify leakage and wastage
2. Promoting rainwater harvesting
3. Displaying water-saving tips at home
4. Encouraging responsible and mindful water usage

We would appreciate it if you could kindly share photos and videos of water conservation practices carried out in your respective societies.

Let us work together to help our children become responsible citizens who value and conserve every drop of water for a sustainable future.

Warm Regards,

Kalyani Chaudhuri

Principal

CBSE Jal Pakhwada 2026: Water Conservation Action Plan

CAMPAIGN OVERVIEW & OBJECTIVES

Campaign Dates:
April 16th – 30th, 2026

A dedicated 15-day school-wide focus on water sustainability and student participation.

Core Objectives

Promoting conservation awareness, implementing rainwater harvesting, building strong student and community involvement.

PRIMARY
(Grades 1-5):
Foundation & Habits

Focuses on 'Close the Tap' monitors and leakage check drives to build basic conservation habits in young learners.

MIDDLE
(Grades 6-10):
Application & Responsibility

Students engage in school water audits, leakage checks, greywater reuse projects, and water crisis debate competitions.

SENIOR SECONDARY
(Grades 11-12):

Leadership & Outreach

Students lead community awareness drives, conduct field studies, perform leadership-oriented research, and calculate water footprints.

UNIVERSAL SCHOOL ACTIVITIES

Daily Jal Shapath

All students and staff participate in a daily pledge to save and protect water resources.

Awareness & Reporting

Consistent awareness campaigns and regular school-wide reporting of conservation activities.

PARENT ENGAGEMENT & COMMUNITY OUTREACH

Conduct Residential Water Audits

Parents are encouraged to identify leakage and wastage within their homes and buildings.

Promote Rainwater Harvesting

Actively supporting and advocating for rainwater collection systems in local residential societies.

Display Visual Reminders

Placing water-saving tips and reminders in prominent locations at home to encourage mindful usage.

CALL TO ACTION: Share Your Progress!

Parents, please share photos and videos of water conservation practices carried out in your respective societies.
