CREATIVE CCA CELEBRATES THE JOY OF MONSOON THROUGH ART

Dominic Savio Kindergarten, Nerul, conducted its first Creative Co-Curricular Activity (CCA) of the academic year on June 25, 2026 for the students of Nursery, Junior KG, and Senior KG. Keeping in mind the ongoing rainy season, the theme for the activity was “**Monsoon**”, allowing children to learn through creativity while connecting with their surroundings.

The classrooms were filled with enthusiasm as the young learners explored different art activities specially planned for their age groups. The activities not only encouraged creativity but also helped develop fine motor skills, concentration, and self-expression.

Nursery students enjoyed colouring a cheerful frog worksheet. With shades of green and bright smiles on their faces, the children enthusiastically coloured their frogs and proudly showcased their completed work. The activity helped strengthen their pencil control and colour recognition skills.

Junior KG students participated in an earbud print painting activity on a snail worksheet. Using earbuds dipped in paint, they created colourful patterns on the snail making it more colourful and vibrant. The children were excited to experiment with this unique technique and thoroughly enjoyed watching their artwork come to life with every print.

Senior KG students displayed their creativity through a paper tearing and sticking activity. They carefully tore coloured paper and pasted the pieces to create vibrant umbrellas, a familiar sight during the monsoon season. The activity encouraged patience, hand coordination, and imaginative thinking while helping children create beautiful artwork.

The Creative CCA provided an enjoyable and meaningful learning experience for all the students. Through simple yet engaging activities, the children explored the colours and beauty of the monsoon season while developing important skills in a fun and interactive manner. The event was marked by active participation, creativity, and the joy of learning through art.
