

DOMINIC SAVIO KINDERGARTEN, NERUL

REPORT OF RED DAY CELEBRATION

By: Tr. Raksha Rosario

Nursery Students Celebrate Red Day with Colourful Activities and Joyful Learning

The Nursery students of Dominic Savio Kindergarten, Nerul, celebrated Red Day with great enthusiasm and excitement. The celebration was organised to help children recognise and appreciate the colour red through engaging hands-on activities, creative expression, and interactive learning experiences. The classrooms came alive with vibrant decorations, creating a cheerful and festive atmosphere for the little learners.

As part of the celebration, the children came dressed in bright red-coloured outfits, adding to the colourful spirit of the day. They also brought red-coloured snacks in their tiffin boxes, making snack time both enjoyable and meaningful as they identified different red food items. To decorate the classroom, the children enthusiastically brought red-themed cut-outs from home, which were creatively displayed, making the learning environment attractive and lively.

The highlight of the day was a fun art activity where the children completed a worksheet by using thumb printing to create cherries. This activity not only strengthened their fine motor skills but also encouraged creativity while reinforcing the concept of the colour red in an enjoyable manner.

The celebration was made even more special by the presence of Tr. Mahek Khan, who visited all the Nursery classrooms and warmly interacted with the students. She appreciated the children's enthusiastic participation, admired their colourful attire and classroom decorations, and encouraged them throughout the activities, making the occasion memorable for everyone.

The Red Day celebration successfully combined learning with fun, enabling the children to identify the colour red through observation, creativity, and participation. The joyful smiles and active involvement of the students made the event a colourful and memorable experience for all.
