Notice Regarding Smooth Movement & Safety During Arrival and Departure

Dear Parents,

The safety of our students and the smooth movement of vehicles and pedestrians during arrival and dispersal is a shared responsibility. We request your cooperation in following these simple guidelines:

For Parents

1. Keep the school gates and road junctions clear — do not park or wait near the gates or block the driveway.
2. Do not stop in the middle of the road. Use the designated drop-off/pick-up area and keep the vehicle moving.
3. Follow the designated traffic flow and do not enter from the wrong side or overtake near the gates.
4. Drop-off and pick-up should be quick. Please do not keep the vehicle waiting for more than 2 minutes.
5. Do not crowd at the gates. Parents should avoid standing or waiting within approximately 50 metres of the school gates.
6. Do not call children across the road. Wait at the designated area and allow them to reach the vehicle safely.
7. Park two-wheelers only in designated areas and keep footpaths and entrances clear.
8. Avoid unnecessary honking and cooperate with the security personnel/parent volunteers directing traffic.

For Student Safety

9. Students must use the designated pedestrian crossing/pathway and must never run across the road.
10. Children should enter and exit vehicles from the safer side wherever possible; bags should remain with the student and not be placed in the boot.
11. Students cycling through crowded areas should dismount and walk their bicycles. Before crossing: Right – Left – Right – Cross when safe.

Together, let us keep the Traffic moving and our children safe.

Thank you for your cooperation.

Regards,

Kalyani Chaudhri
Principal 1/10/26
