VALUE EDUCATION PROGRAMME – CLASS III C & III D
06th OCTOBER 2026
THE SUNSHINE ENERGY SHOW
TEACHER'S INCHARGE: Tr. Khushi & Tr. Rupali

As part of the Value Education Programme, the students of Classes III C and III D of Don Bosco Senior Secondary School, Nerul, presented an informative and engaging programme on the theme **"The Sunshine Energy Show"** on 06th October 2026. The programme highlighted the importance of solar energy as a clean, renewable and sustainable source of energy while encouraging the audience to make responsible choices for a greener future.

The programme commenced with a warm welcome and an energetic opening that introduced the audience to the power of the Sun. Through confident narration, role play, dialogues, music and creative performances, the students explored the importance of solar energy and its growing role in everyday life. The young presenters explained how sunlight can be converted into useful energy and how choosing renewable sources can help reduce our dependence on conventional forms of energy.

A major highlight of the programme was the engaging presentation on **solar energy and its applications**. Through skits, demonstrations and interactive segments, the students showcased how solar power can be used in homes, schools, agriculture and other areas. The programme also featured real-life examples from India, including solar initiatives in schools, **PM-KUSUM** and solar parks, helping students connect classroom learning with developments taking place around them.

The programme beautifully conveyed the message of responsible energy consumption through creative performances, an interactive segment and thought-provoking presentations. The students encouraged everyone to use energy wisely, explore clean sources of energy and understand that small, responsible choices can contribute towards a healthier planet. The enthusiastic presentation of the young participants made the message both meaningful and enjoyable for the audience.

The programme also highlighted important **Sustainable Development Goals**, including **SDG 7: Affordable and Clean Energy, SDG 12: Responsible Consumption and Production, and SDG 13: Climate Action**. The students'

enthusiastic participation, teamwork, creativity and confident presentation reflected their sincere preparation and understanding of the theme.

The programme successfully achieved its objective of helping students understand the importance of renewable energy and the role of solar power in building a sustainable future. The positive response from the audience and active involvement of the students made the programme a memorable, meaningful and enriching learning experience. The programme was efficiently coordinated under the guidance of **Tr. Khushi and Tr. Rupali**, whose dedicated efforts ensured the smooth planning and successful execution of the event. It concluded with the Vote of Thanks and the School Anthem, leaving the audience with a bright message for the future: **“Harness the Sun, Save Energy, Save the Future!”**
